Template									
Template ID	Accounts payable demo template								
Description	Accounts payable								
Template status	Validated								
Last validated date	5/22/22 11:22 PM								
Entity	Execution unit	Level in execution unit	Sequence	Application module	Tags	Entity category	Fail batch on error for execution unit	Fail batch on error for level	
Terms of delivery	1	30	10	Shared AP and AR	Setup	Master	No	No	
Terms of payment	1	40	10	Shared AP and AR	Setup	Reference	No	No	
Vendor payment method	1	120	10	Accounts payable	Vendor payment setup	Reference	No	No	
Vendor reasons	1	30	10	Procurement and sourcing	Vendor setup	Master	No	No	
Modes of delivery	1	30	20	Shared AP and AR	Setup	Master	No	No	
Vendor groups	1	40	20	Procurement and sourcing	Vendor setup	Master	No	No	
Vendors V2	1	120	35	Procurement and sourcing	Vendors	Master	No	No	
Vendor bank accounts	1	120	40	Accounts payable	Vendor payment setup	Master	No	No	
Vendor posting profile	1	120	45	Accounts payable	Parameters	Master	No	No	
Vendor ledger accounts	1	120	50	Accounts payable	Parameters	Master	No	No	
Vendor parameters	1	120	60	Accounts payable	Parameters	Parameters	No	No	

Sequencing

Entity Sequencing

Entities						
+ Add entity + Add multiple Remove entity Open in Excel Resequence Sort by Replace from template Create from data project						
Entity	Execution unit ↑	Level in execution unit	Sequence	Module	Tags	
Reconciliation matching rules	1	30	10	Cash and bank management	Reconciliation	
Reconciliation matching rule sets	1	30	20	Cash and bank management	Reconciliation

Bank transaction groups	1	40	10	Cash and bank management	Setup	
Bank posting profiles	1	40	30	Cash and bank management	Setup	
Bank parameters	1	40	30	Cash and bank management	Setup	
Bank accounts	1	100	10	Cash and bank management	Accounts	

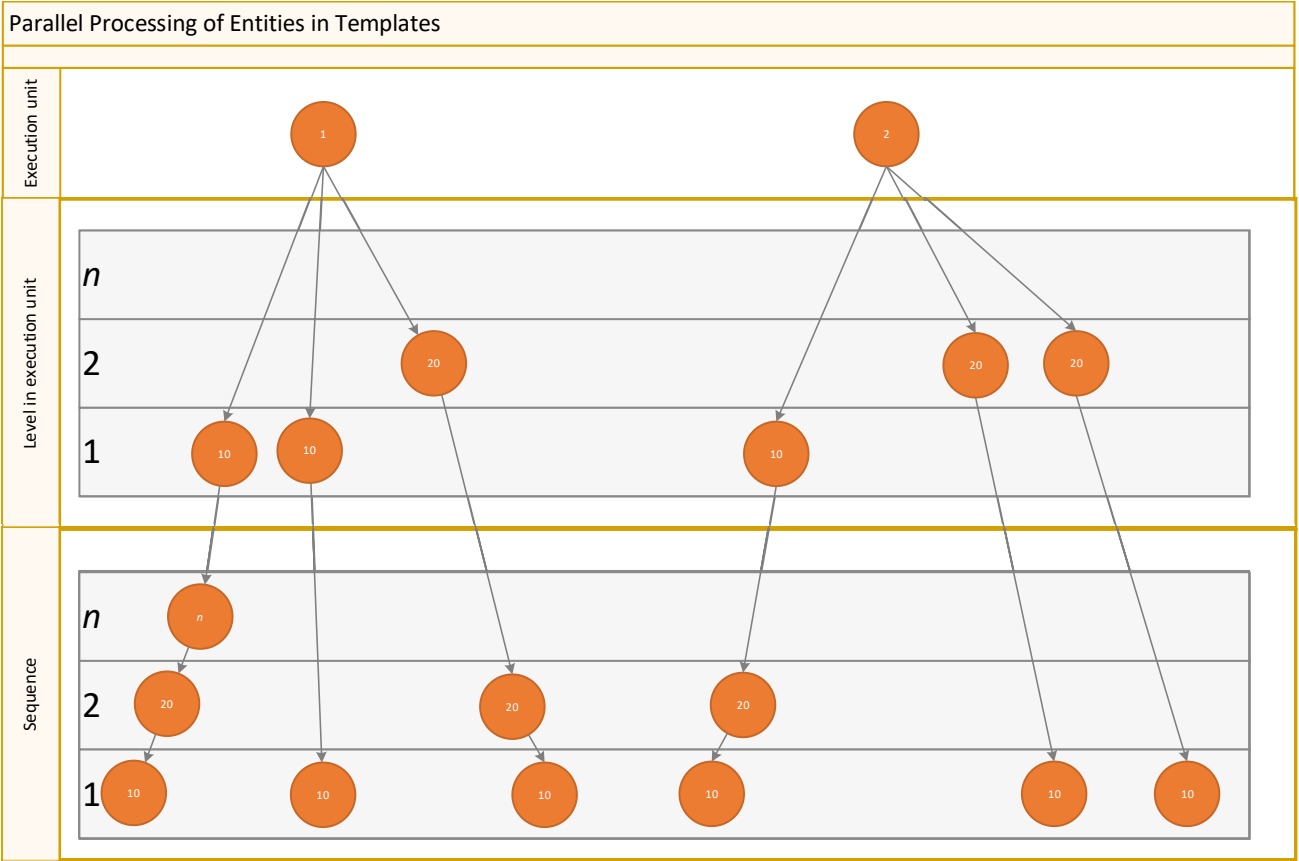

Entity Sequencing

Execution unit

Level in execution unit

Sequence

Sequencing in the Default Templates

Module	Unit	Level
System setup	1	10
Global address book	1	15
General ledger shared	1	20
Workflow	1	22
General ledger	1	25
Band 1 for dependencies	1	30
Band 2 for dependencies	1	40

Scenario

Scenario

Understand the end-to-end business process.
Separate data import process from subsequent posting processes.

Execution summary :: Import

Data project name	Job ID	Execution status		<div>Refresh</div>
AP import demo using templates	AP import demo using templat...	Succeeded		
Start time	End time	With errors:		
5/23/2022 02:39:30 AM	5/23/2022 02:44:07 AM	0		

Entity processing status

 View staging data

 Filter 

<input type="radio"/> Entity	Status	Pending	In staging	Created	Updated	Total
<input checked="" type="radio"/> Terms of delivery	✓ Succeeded	0	8	0	8	8
Vendor reasons	✓ Succeeded	0	12	0	12	12
Modes of delivery	✓ Succeeded	0	16	0	16	16
Terms of payment	✓ Succeeded	0	10	0	10	10
Vendor groups	✓ Succeeded	0	6	0	6	6
