Agenda

- What is Process Advisor?

- Install Process Advisor (Minit)

- Demo: How to use Process Advisor

- Licensing

- Q&A

What is Process Advisor

The process advisor feature allows you to gain a better understanding of your business processes so you can optimize them. Process advisor offers *task mining* and *process mining* capabilities to do this.

Install Process Advisor (Minit)

Install desktop version from the Maker portal.

Demo: How to use Process Advisor

Teodora Ivanova

Licensing

- Power Automate per user license
- Trial license

Note: The per-user licenses enable users to analyze task mining processes and view their analytics. Other actions such as contributing recordings and setting up process mining processes don't need the Power Automate per-user licenses. License is required if used in non-Default environment.

Thank you

Microsoft Dynamics 365
